California State University, Long Beach is hosting a research grant information workshop with guest speaker

Kellina M. Craig-Henderson, Ph.D.
Deputy Asst. Director for
Social, Behavioral & Economic Sciences of the
National Science Foundation

Monday, June 6th from 9:30 am – 11 am

California State University, Long Beach
1250 Bellflower Blvd., Long Beach, CA 90840
Barrett Athletic Administration Center
(next to Walter Pyramid)
Conference Room (2nd Floor)
Admission: FREE – Day Parking Permits: $5
Seating is limited, so please RSVP to
CSULB.ResearchForum@yahoo.com

Topics will include an overview of NSF funding opportunities with an emphasis on the SBE sciences as well as NSF-wide programs to support research for career investigators, post docs, graduate and undergraduate students.

Kellina M. Craig-Henderson, Ph.D. was a Full Professor of Psychology at Howard University prior to joining NSF. She received a bachelor’s from Wesleyan University, master’s in Social Sciences from the University of Chicago, and a master’s and doctorate in Psychology from Tulane University. At the University of Illinois in Champaign-Urbana, she served as faculty for Psychology as well as the Afro-American Studies and Research program. This was followed by an appointment in the Psychology Department of California State University, Long Beach.

Dr. Craig-Henderson is passionate about broadening the participation of underrepresented groups. She has been a leader at NSF promoting the establishment of a new social science program supporting evidence-based research on the Science of Broadening Participation. Her efforts have resulted in federal support for research examining issues related to gender parity in STEM, minority participation in work settings as well as a number of other areas. She has published reports on her empirical research in peer-reviewed journals as well as two books on interracial relationships. Her research program includes studies of groups, cross-cultural, gender and race issues, as well as aggression, and expatriation processes.

This workshop is sponsored by CSULB’s Office of Research and Sponsored Programs (ORSP). (4/2016)
