- SAS, SPSS, MINITAB

Limited Availability (via LabSpace, aka simlab)

- ATLAS, NVIVO (qualitative)
- GIS (mapping)
- STATA, SUDAAN
Learning Opportunities

Request for Proposals to fund training  (March 2010)

1. What is your current level of statistical/methodological expertise in the area?
2. What are the additional skills to be acquired from the specific training?
3. How could the skills benefit you?
4. How could the skills you learn be transferred to others on campus?
Questions?

FACT: YOU HAVE A 39% GREATER CHANCE OF BEING STRUCK BY LIGHTNING AND THEN BEING EATEN BY A SHARK THAN YOU DO OF BEING KILLED BY A FALLING PIANO...

...BUT KEEP IN MIND THAT 98% OF ALL STATISTICS ARE MADE UP.

...AND 100% OF THE STATISTICS IN THIS COMIC ARE JUST FALSE.
